

Buzzirk Mobile and Global Verge Fail To Launch Global Mobile 1

By Mohamed Fazal

Dated: Nov 20, 2009

Global Verge Reps Waited for another launch after the company failed to launch on July 1 with Zero one cutting their ties with Ceo who has a reputation for having flopped launches. What happend to all the reps that were promised from 6 months ago.

Global Verge and Buzzirk Mobile had another failed launch today with the setback of another launch. These guys are really causing a upset and putting a bad name to the mlm and telecom area.

They first promised to launch in July 1 when convicted Ceo was found out , Zero1 severed their contract . Global verge had problems securing a merchant. Reps were furious and many lauched lawsuits.

The company now because of its tainted reputation has to rename its brand Global mobile 1, which is really buzzirk mobile which has failed to launch now 3 times.

Reps are flocking to a company based out of Dallas texas that has already launched smoothly and i now offering what the experts say is the most advance mobile phone of the decade.

Reps from global verge are looking for a solid home without the lies and setbacks. There is no customer service in place the the company is labelled all over the internet as a fraud.

Large groups of people have flocked to FDI, which has major issues as well to only find themselves jumping ship again of looking for the real winner that is selling this Mobile Wifi techonology now with no waiting lists.

Televerus has had the benefit of all the failed and dissappointments of these other players in the telecom arena by provide a truly unlimited plan with no credit checks or contracts.

The company also has an agreement with AT& t and Sprint and is now marketing their services.

What a release it has been , its a flop show againg for Buzzirk or global mobile 1.

Televerus is a Division of Traverus and they have been in business for over 20 years.

The ceo is the Co Chairman of 5ctv.tv in China. They are doing things right the first time.

The company has a underlying Voip Provide that is the pioneer in Digital Voip services. The Nokia is rated as the most advanced smartphone ever made . This unlocked GSM Phone gives unlimited Internet and Talk and Text.

Televerus has lighting fast broadband that can power your laptops. Consumer and reps are very happy to have finally found a real company that does not sell hype and actual cares about there partners.

Telecom is a 4.5 trillion dollar industry and travel is 7 trillion dollar industry. With Televerus as the new Telecom arm, the company has deep pockets and have spent the money to put a robust system in place for its reps.

They are seeking highly motivated Entrepreneurs to help with the new launch.

###

Televerus offers high quality Voip and Wireless technology services throught a direct selling model. The company is a leader in the online travel areana. Televerus in a new telecom are recently launched that has created the new Mobile Voip Frenzy everyone is talking about. Company site is televerustelecom.com
